

OCCUPATIONAL RISK REGULATIONS

2.1 Employee passes during periods of build up and break down

Fira de Barcelona requires the personnel present in the exhibition areas to be duly identified/accredited. To do so, all personnel involved in the build up and break down of the event are given personnel passes.

During the days of build up and break down, individuals under the age of 16 shall not be allowed to enter the halls.

2.2 Provisions on the prevention of occupational risks during build up and break down

The build up contractors must comply with and ensure that there is compliance (of their contractors and subcontractors) with the current legislation with regard to the prevention of occupational risks that can be applied to the tasks carried out in each case. This is relevant to tasks carried out directly, as well as those that are subcontracted.

The companies that participate in build up and break down tasks must have an Occupational Risk Prevention management system (in accordance with the provisions of the Law on Occupational Risk Prevention 31/95, Art. 30). This section is included in ANNEX No. II of Occupational Risk Prevention.

The build up contractors hired by the exhibitors and companies involved in the build up and break down of stands must immediately report the occurrence of any accident or incident that requires action by Fira de Barcelona to the hall manager, the medical area or Fira de Barcelona personnel.

2.3 Information on risks and preventative measures

ANNEX II contains detailed information about the risks and preventative measures to be considered during the periods of exhibitions and the events build up, as well as the risks and preventative measures to be considered during the show days.
