Journal of Thoracic Oncology Announces New Journal at World Conference on Lung Cancer

Barcelona – The *Journal of Thoracic Oncology* today announced that a new open access journal, *JTO Clinical and Research Reports*, will debut during the first quarter of 2020. The announcement was made at the International Association for the Study of Lung Cancer **World Conference on Lung Cancer in Barcelona**, Spain by *JTO* editor Dr. Alex Adjei.

JTO Clinical and Research Reports will be the official open access journal of the IASLC. Its goal is to complement the *JTO* by providing authors a gold open access publication option.

The current *JTO* management and oversight team, along with select members of the *JTO* Editorial Board, will serve as the *JTO Clinical and Research Reports* editorial board to ensure the roll out for this new publication is seamless, said Adjei. An editorial board dedicated to the *JTO Clinical and Research Reports* will be established after the first year of publication is completed.

The inaugural year of *JTO Clinical and Research Reports* will print quarterly. The new journal will publish the following categories of articles:

- Phase I trials
- Well performed single-arm phase II trials
- Subset analyses of published trials
- Impactful retrospective Studies
- Database analysis
- Large institutional series
- High-quality case reports
- Region-specific clinical trials
- Subspecialty thoracic oncology studies
- Selected high-quality meeting reports

The *Journal of Thoracic Oncology* (*JTO*) remains the official journal of the IASLC. It is the primary educational and informational publication for topics relevant to the prevention, detection, diagnosis, and treatment of all thoracic malignancies. More information will be available soon at jtocrr.org.

About the IASLC:

The International Association for the Study of Lung Cancer (IASLC) is the only global organization dedicated solely to the study of lung cancer and other thoracic malignancies. Founded in 1974, the association's membership includes more than 7,500 lung cancer specialists across all disciplines in over 100 countries, forming a global network working together to conquer lung and thoracic cancers worldwide. The association also publishes the *Journal of Thoracic Oncology*, the primary educational and informational publication for topics relevant to the prevention, detection, diagnosis and treatment of all thoracic malignancies. Visit www.iaslc.org for more information.
